Peter O'Mallick isn't
just having a bad day;
he's having a bad life.

Mark Leslie's 1ST novel

I, Death

It's troubling enough when your girlfriend suddenly casts you a cold shoulder, your grades are slipping and those around you no longer understand what it's like to walk in your shoes; but possessing the innate power to end lives—something Peter begins to realize he's had since birth—takes the angst to a whole new level.

And Hamlet thought he had it bad.
